	Comments	50X1-HUM
(T)	In 1949, the Lasarykovy Barracks quartered units of the 1st Bachmacky RR	
	Engr Regt. It is doubted that troops of this unit should still have been	
	there in February 1951. The armored vehicles are indicative of a tank	•
	unit which is believed to be stationed	
793	in Fardubice.	50X1-HUM
(2)	In late 1949, the Cavalry Barracks, south of the stadium, quartered elements	
	of the cavalry brigade. These troops, who were stationed in Fardubice, were allegedly still there in Sentember 1950.	
	were difficulty soil! there in Sentember 1950.	50X1-HUM

(3)	the barracks installation at Hurka was occu-	
,	pled by somponents of the railroad engineer regiment and AAA units in 1949	50X1-HUM
	is confirmed. until February 1951.	
	It is probable that this installation also quarters signal units, since the	
	oth oig kegt is carried in Fardubice.	
(4)	The report confirms the registrations for the	50X1-HUM
	orait in February 1951.	
	draft of the 1931 class confirms t that any a small	
	contingent of the 1931 class is due for induction in 1951.
